To Whom it may concern:

Safety Talks is a Health and Safety advisory partner to **AR PROJECTS AND DEVELOPMENTS PTY LTD.**

Safety Talks is a safety advisory company who specialise in health and safety issues affecting the construction industry. We have been in operation since 2006 and have a large portfolio of clients and projects supported by a dedicated team.

Our vision is to assist **AR PROJECTS AND DEVELOPMENTS PTY LTD** to comply with Health and Safety legislation and requirements in order to maximise profitability and minimise loss of production time and human resources.

We at **Safety talks** provided our clients with "Project" and "site specific" safety documentation to assist them with legal compliance and day to day maintenance of such living documents. Our safety officers are registered and in good standing with SACPCMP which allows us to conduct regular health and safety monitoring on projects and compile detailed audit reports to management.

We believe that we can make a difference to people's attitudes towards health and safety and we strive to reduce the number of fatalities and disabling injuries in the workplace, most of which are preventable – especially with a sound safety management system in place.

We at **SAFETY TALKS** are proud to be affiliated with **AR PROJECTS AND DEVELOPMENTS PTY LTD** and we believe and trust that we will have a long and prosperous association together.
